# YOUNG YELLOW PINE TOPS,

(Leaves ~~8~~<sup>10-18</sup> to ~~10~~ inches long.)

Same price as Saw Palmettoe Plants, without roots,  
according to Size.

THIS BEING MY SEVENTH YEAR IN THIS BUSINESS, I give herewith a short description of some of my leaders.

Weight given will vary somewhat, and is given mainly to show what goods are like.

### **Palms, Air Plants, Magnolia, etc., Are at their Best**

in this part of Florida, and my facilities for supplying them promptly are unsurpassed. Having lived at Sylvan Lake the past twelve years, engaged in work that made me acquainted with every part of our hammocks, swamps and rivers, enables me to supply anything that grows here very promptly. If you wish anything not on list, write to me, and I will look up the matter and give you a prompt answer.

## CABBAGE PALM (Sabal Palmetto.)

LEAVES, 2½ to 3 ft. long; 2 to 2½ ft. wide; stems 3 to 4 ft. long.

Weight, per 100, packed, about 300 lbs. Will keep well.

CROWNS, 4 to 6 leaves, very showy.

PLANTS, with some roots; good for decorations. They will keep much longer than cut Crowns. The smaller sizes (6 to 12 inches) are suitable for potting

## CHAMÆROPS PALMS.

Glaucus on bottom of leaf; very glossy dark green on top.

## SAW PALMETTO (Serenoa Serrulata.)

LEAVES 12 to 18 ins. in diameter. Weight, packed, per 1,000, about 300 lbs.

CROWNS, 3 to 6 leaves; very much used.

Weight, packed, per 100—3 feet, about 250 lbs.; 5 ft., about 400 lbs.

PLANTS, with creeping stem; will keep much longer than cut Crowns.

## CABBAGE PALM BUDS—Young Leaves cut before they open.

Used for distribution in Catholic Churches on Palm Sunday.

No. 1—Selected; all with stems; from 4 to 5 ft. long. Weight, about 3 lbs.

each. Price, per 100, \$.....; per 1,000, \$.....

No. 2—Some of these have no stems, but will do as well for distributing, as they are easier divided into strips; from 3 to 5 ft. long. Weight, 2 to

3 lbs. each. Price, 100, \$.....; per 1,000, \$.....

Place your order early for these, and state when you want them shipped.

## FLORIDA OR SPANISH MOSS.

Excellent for Cemetery work, Festooning, etc. Will keep well. Give it plenty of air. Sprinkle occasionally.

## TILLANDSIA OR AIR PLANT.

The reason these are not used more is because they were never offered cheap enough before to allow of their use in large quantities. There is nothing that will take their place, or stay green as long. I have kept these hung up on a wall in New York two months, and when I left they

were still perfectly green. Keep in the shade and sprinkle occasionally. Give them lots of air.
